

## Welcome to YTB and The Global Leadership Group

We are excited that you decided to take charge of your financial future and have joined one of the fastest growing teams in YTB.

There are several things that will determine your success, none of which is more important than your ability to be coachable, teachable, and to learn a proven system of duplication. Our team's proven dual disc system has created wealth for years in the direct selling industry.

The system you have in front of you can take you from where you are today to where you want to be. There is no hype in what we do, just results. Not only do you have annual millionaires in your upline, you also have several individuals that have earned 6 figures with YTB already and 7 figures from this industry. That is not said to impress you but to impress upon you that we are very good at what we do. It would be our privilege to help you duplicate what we have done.

### HOW TO GET STARTED:
